## RESOLUTION

Honoring the brave men and women of the intelligence community of the United States whose tireless and selfless work has protected America from a terrorist attack for the past eight years, and for other purposes.

Whereas United States intelligence agencies are actively combating hostile regimes and terrorists who plot to kill Americans or harm the interests of the United States around the world;

Whereas through robust interagency teamwork, collaboration with international partners, and ever more effective tools

and tactics, the intelligence community of the United States is keeping America safe;

Whereas the tireless efforts of the intelligence community are making a difference in the lives of United States citizens, as evidenced by the announcement on May 20, 2009, of disruption of a plot by radical Jihadist terrorists in New York to bomb religious sites and shoot down airplanes;

Whereas keeping terrorists, extremists, and radical Jihadists from freely operating in our country, where they undermine American values and threaten families, schools, and communities, must continue to be an utmost national priority; and

Whereas the men and women of the intelligence community are professionals, who, while either at home or across the globe and away from family, execute a critical mission with quiet dedication and without the luxury or need of public recognition, and continue to display selfless service in protecting the United States and the American people: Now, therefore, be it
